

LSE SSLCertificate

The Add-On SSLCertificate makes it possible to manage SSL certificates through the visualization. The certificates are divided in three folders:

- Rejected – rejected/unknown certificate
- Revoked – permanently rejected certificate
- Trusted – categorized as trustworthy Certificates

Via the Add-On, users can view the certificates and evaluate then as trustworthy or rejected. This Add-On contains the program elements for the LASAL CLASS project, as well as the LASAL SCREEN projects for multiple resolutions.

FEATURES

- Display of certificates from the SSL folders
- Display of certificate content
- “Trusting” certificates
- Moving certificates to different SSL folders
- Deleting certificates

FACTS

Development environment	LASAL CLASS 2, LASAL SCREEN, LASAL Machine Manager
