

EM77 Server

The EM77 Server Library offers the possibility to realize a Euromap 77 server on a SIGMATEK system. The Euromap 77 standard describes a uniform interface between injection molding machines (IMM) and higher-level systems (clients) such as MES master computers, ERP systems, etc. for data exchange via OPC UA.

FEATURES

- Full OPC UA Euromap 77 server
- Connection to MES client systems
- Transfer of recipe data
- Alarm transmission
- Secure data transmission using SSL encryption
- Simplified connection to a visualization, such as LASAL VISUDesigner from SIGMATEK

FACTS

Development environment	LASAL CLASS 2, LASAL SCREEN, LASAL VISUDesigner
Article number	02-010-079
Performance index	A B C D E
