

## LSE PDFViewer

This Add-On is a PDF viewer with simple to operate basic functions. When opening a PDF file, various PDF data are displayed, such as path and name of the file, as well as the current serial number and the entire page count.

The Add-On contains a file explorer for selecting the desired PDF file. Zooming and navigation in the PDF is possible.

This Add-On contains the program elements for the LASAL CLASS project, as well as the LASAL SCREEN projects for multiple resolutions.

### FEATURES

- Browser for selecting the files
- PDF display
- Function buttons for zoom and page turning

### FACTS

|                         |                                                    |
|-------------------------|----------------------------------------------------|
| Development environment | LASAL CLASS 2, LASAL SCREEN, LASAL Machine Manager |
| Operating system        | RTOS, Salamander                                   |
